

A black and white photograph of a large industrial facility, likely a factory or manufacturing plant. The image shows multiple levels of machinery, including large presses and control panels. The foreground features a large machine with a control panel on the right side, which has several gauges and buttons. The background shows more machinery and structural elements of the building. A blue rectangular overlay is positioned on the left side of the image, containing the company name and website.

CHEMEX

About Chemex

- **Founded in 1978**
- **Member of HEROSTAR GROUP**
- **Certification:** ISO 9001:2015, FDA Registration, TUV, DUNS
- **Specialization:**
 - Precision Grinding Equipment (Chemex Taipei)
 - Brake Pad, Brake Lining, Clutch Turn
 - Plastic Injection Molding Products
 - Metal Stamping/Machining Products

Chemex - NanHua

NAN HUA

- ❑ Establishment: 1988

- ❑ Specialization:

 - ❑ Automatic Hydraulic Machines

 - Melamine, Foam, Rubber, Domino, Hydraulic Embossing, labor-saving professional machines,

 - ❑ Clutch Turnkey

 - ❑ Brake Pad and Lining Turnkey

- ❑ Capability: Max. 40 Hydraulic Machines/ month

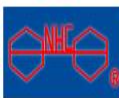

□ Strength:

- ▣ Decent, Durable, Dependable and Customizable

□ Customers

- ▣ Taiwan: 90%+ of Brake System Manufacturers

Nan Hoang Traffic Instrument Co., Ltd

Professed production of friction materials ISO/TS 16949 & ISO 14001

- ▣ China: Major Brake System Manufacturers

XINYI BRAKE PAD
Well-known Brand in China

格菜利

- ▣ Global: Algeria, India, Mexico, Russia, UAE, Kenya, etc.

LEADER IN BRAKE PARTS

List of Brake Lining Equipment

| | | | |
|-------------------------|--|---------------------------------------|--|
| Material Mixing | 300L Horizontal Mixer | Lining Grinding | I.D. Grinding Machine for Medium Brake Lining |
| | 400L Vertical Mixer | | I.D. Grinding Machine for Large Brake Lining |
| | 600L Horizontal Mixer | | O.D. Grinding Machine for Medium Brake Lining |
| | | | O.D. Grinding Machine for Large Brake Lining |
| Pre-forming | 50 Ton Pre-forming Hydraulic M/C | Pad Chamfering, Grooving, Grinding | 3 in 1 or 4 in 1 Complex Working Machine |
| | 80 Ton Two Station Transfer preforming Machine | | |
| | 200T Preforming M/C for Brake Lining | | |
| | Automatic Digital Weighing and Preforming Machine | Lining Slitting | Slitting Machine for Medium Size Brake Lining |
| Backing Plate Deburring | Rotary Blasting Machine | Lining Drilling | Drilling Machine for brake lining(Double Spindle, CNC) |
| | | Spray Painting | Washing Operation Machine, Powder Coating System |
| Backing Plate Glue | Backing Plate Auto Gluer | Heat Treatment | Oven (Vent- Stainless Steel, High Efficiency Heater) |
| Shim Glue | Anti-Noise Shim Semi-Auto Gluer | | |
| Thermosetting | Automatic Positive Molding Press for OEM brake pad (150Ton, 4 Press/Station) | Riveting | Hydraulic Riveting Machine |
| | 150T~800T Hot Press for brake pad/ lining | Testing | Computerized Friction Tester |
| | | Dust Collecting | Dust Collecting System (Depending on Final Floor Plan) |
